Hi Katrina,

I've processed the geophysical logs that we collected earlier this week and the preliminary logs are attached below. The video logs are not ready yet and are very large files so we may have to put them on our ftp site once they're ready to get them to you.

We can discuss the details of the logs on our call next week. Let me know if you'd like me to setup a webex for the call or if you have any questions/concerns.

Thanks,
Jon
